PROFESSIONAL SUMMARY

Software Engineering Technology graduate from Institut Teknologi Del with hands-on experience in web and mobile application development and application security testing. Skilled in PHP, Laravel, JavaScript, MySQL, HTML, CSS, Flutter, and REST API development, with experience in database design, application testing, and Git/GitHub.

EDUCATION

Institut Teknologi Del | Laguboti, North Sumatra, Indonesia | *Aug 2022 – Sep 2026*

- Bachelor of Applied Software | GPA: 3.18/4.00
- Relevant coursework: Software Development, Web Development, Software Security, Distributed Systems, Data Structures and Algorithms
- Final project: Implementation of a Primary-Standby Database Architecture for Performance Optimization of the Distributed TAPATUPA System

EXPERIENCE

PT Wide Technologies Indonesia | Jakarta, Indonesia | *Jul 2025 – Dec 2025*

- Contributed to application security testing based on the OWASP Top 10, focusing on Broken Access Control, authentication issues, and Server-Side Request Forgery (SSRF).
- Participated in Java application development training covering Java fundamentals, Spring Framework, JavaServer Faces (JSF), and Hibernate.
- Identified and validated vulnerabilities using Burp Suite and OWASP ZAP.
- Assisted with mitigation measures and retested applications to verify that identified vulnerabilities were addressed.

Coding Camp by DBS Foundation | Indonesia | *Jan 2025 – Apr 2025*

- Machine Learning Engineer Intern
- Completed hands-on training in data science, data analysis, and machine learning.
- Used SQL and Python with Pandas, NumPy, and Matplotlib for data analysis.
- Implemented machine learning and basic deep learning models, and worked across data preprocessing, feature engineering, model evaluation, and deployment.

PROJECTS

Rumah Kreatif Toba – Mobile E-Commerce Application | Toba, Indonesia | *Jan 2025 – Jul 2025*

- Developed a mobile e-commerce application with authentication, buyer–seller chat, searchable and filterable product catalog, shopping cart, checkout, order history, and product reviews.
- Built the mobile front end with Flutter (Dart), backend APIs with Laravel (PHP), and centralized data storage with MySQL.
- Implemented an admin dashboard, seller management tools, and a help center.
- Collaborated across three Agile Scrum sprint cycles, contributing to UI/UX design and full-stack development.

Corn Leaf Disease Identification Using Machine Learning | Toba, Indonesia | *Aug 2024 – Dec 2024*

- Developed a web application to identify corn leaf diseases using a Convolutional Neural Network (CNN) with DenseNet121 transfer learning.
- Used Jupyter Notebook for preprocessing, model training, and evaluation using accuracy, precision, recall, F1 score, and confusion matrix.
- Applied image processing techniques, including data augmentation and enhancement, to improve model generalization.
- Deployed a Flask interface for image input and diagnosis of Leaf Wilt, Leaf Spot, and Rust.

HKBP Parparean Church Information Management System | Toba, Indonesia | *Jan 2024 – Jun 2024*

- Built a web-based information system with user registration, news, announcements, and service scheduling.
- Designed the MySQL database and implemented backend content and member management with Laravel (PHP).
- Developed responsive public and admin interfaces using HTML, CSS, JavaScript, and Bootstrap.

Rumata Coffee Digital Marketing Website | Toba, Indonesia | *Jan 2023 – Jun 2023*

- Developed a digital information website to promote Rumata Coffee's products and services to a wider online audience.
- Designed a database supporting multiple user roles using native PHP and MySQL.
- Implemented a content management system for product data, image uploads, and customer feedback.
- Integrated Google Maps and WhatsApp APIs to improve functionality and interoperability.

ORGANIZATIONAL EXPERIENCE

Badan Eksekutif Mahasiswa (BEM), Institut Teknologi Del | *Nov 2024 – Jan 2025*

- Treasurer, Religious and Social Department

Badan Eksekutif Mahasiswa (BEM), Institut Teknologi Del | *Nov 2023 – Nov 2024*

- Member, Religious and Social Department

Google Developer Student Clubs (GDSC), Institut Teknologi Del | *Sep 2023 – Present*

- Member

HIMATERA, Institut Teknologi Del | *Sep 2022 – Aug 2026*

- Member, Association of Software Engineering Technology Students

CERTIFICATIONS

Dicoding | *2025*

- Pengenalan ke Logika Pemrograman (Programming Logic 101)
- Memulai Pemrograman dengan Python
- Belajar Dasar Structured Query Language (SQL)
- Belajar Dasar Visualisasi Data
- Belajar Dasar AI
- Belajar Dasar Git dengan GitHub
- Memulai Dasar Pemrograman untuk Menjadi Pengembang Software

MySkill | *2025*

- Python Introduction for Data Analysis

SoloLearn | *2025*

- JavaScript Intermediate

SKILLS

Technical Skills

- Programming Languages: Java, PHP, JavaScript, Dart, SQL, Python
- Web Frontend: HTML5, CSS, Bootstrap, Vue.js, React.js, Next.js
- Web Backend & APIs: Laravel, Spring Framework, REST APIs
- Mobile Development: Flutter
- Database: MySQL, PostgreSQL, MongoDB
- Security Testing Tools: Burp Suite, OWASP ZAP
- Tools and design: Git, GitHub, Burp Suite, OWASP ZAP, Jupyter Notebook, Figma
- Java Technologies: JavaServer Faces (JSF), Hibernate
- Tools & Design: Git, GitHub, Jupyter Notebook, Figma

Soft Skills

- Problem solving, Team Collaboration, Communication, Time Management, Analytical Thinking, Leadership
